

# INSTRUCTIONS

## STEP 1 PREPARING YOUR LAPEL MICROPHONE

Start by removing the belt pack clip, tie clip and any sound muffler.

## STEP 2 INSERTING YOUR LAPEL MICROPHONE

Feed the microphone into the underneath central hole of the black core, so the microphone sits just below the surface.

Wrap the remaining cable around the pack transmitter.

Position the belt pack into the black core as demonstrated, making sure it is switched on.

Insert the black core into the BIG MIC BALL keeping the microphone connector and aerial aligned with the internal holes.

## STEP 3 TEST AND THROW

Test your sound and then you are ready to throw!
